**American Heroes Air Show Recap.** The American Heroes Air Show took place on June 18th at Hansen Dam and was a great success. The temperature soared into the high 90's but it didn't stop the helicopters from various government agencies and companies from performing for the crowd and taking folks for rides. Several Whiteman Airport tenants stopped by our booth to say hello, and all I spoke to at the event seemed to really enjoy the experience. It was also a good opportunity to meet face to face with many of our neighbors and tell them a little about the Airport and the various programs offered for youth and adults alike. I also had the opportunity to speak with several individuals that are just getting into the world of drones and explained proper operations around airports. I'm happy to report that all members of the community that I spoke with were pro-airport and many had even come by for various airport events in the past.

**Whiteman Airport Open House.** Our annual Airport Open House is scheduled for Saturday, September 24th from 10 am – 2 pm. Those that would like to participate by exhibiting their aircraft or hosting a booth for an aviation club or organization should contact my office at (818) 896-5271 to make arrangements. For those that have come out in past years, we hope to see you again this year and for those that have not attended before, we encourage you to come out to say "hi" and meet with fellow pilots and members of our surrounding community!

**Whiteman Airport Association Summer BBQ Recap.** The Whiteman Airport Association's annual summer BBQ will be held on Sunday, July 10th at 11 am in the park area in front of the old Administration Building. Free hamburgers, hot dogs, salads, soft drinks and desserts will be served to all paid Association members and their spouses. If you have not renewed your Association membership this year or have never been a member, all are welcome to attend the BBQ and join for the very low rate of \$10 in yearly dues. At the same time as the BBQ the monthly antique aircraft display day will also be going, so come on out, enjoy lunch with your fellow aviators and see some beautiful airplanes!

**The move to the new Terminal is complete.** We have moved into our new Terminal Building! For those that are unaware; back in 2014 the County completed the purchase of the Vista terminal building as well as the two maintenance hangars located midfield along Airpark Way. While you will not notice any difference to the Vista operation on the first floor, the second floor of the terminal has undergone a complete transformation and now contains the Administration Office as well as Airport Ops, a conference room and the future space for a café which work is continuing on at this time. I encourage you all to stop by and see the new space; we hope you're as happy with it as we are!

**Vehicle Access Gate Cards.** As a reminder; the new vehicle access gate cards that were issued in 2014 when our new gates were installed require annual renewal, which is scheduled to coincide with the holder's birthday. Please stop by the office before your birthday or call us during office hours (Monday through Friday, 8am-5pm) at (818) 896-5271 to have your card renewed

**Need Hangar Repairs?** If you are having difficulty with your hangar please do not hesitate to call the office at (818) 896-5271 so that we may diagnose the problem and make the appropriate fixes.

## FAA issues final policy on the use of airport hangars

JUNE 15, 2016 BY GENERAL AVIATION NEWS STAFF | [www.generalaviationnews.com](http://www.generalaviationnews.com)

The FAA's final policy on the non-aeronautical use of airport hangars appears in the June 15th edition of the Federal Register and will take effect on July 1, 2017.

The FAA is issuing the policy to clarify how aviation facilities – including hangars – can be used on airports that receive federal funds. The final policy strikes a balance between hangar use for aviation and non-aviation purposes, according to FAA officials.

“The policy ensures hangars are available when there is an aviation need, and if demand is low, allows hangars to be used for non-aviation activities,” FAA officials said in a prepared release.

“The FAA recognizes that non-aviation hangar space rental allows airport sponsors to be economically independent when hangars are not being used to fulfill aviation needs,” the release continued.

Airport sponsors must receive approval from the FAA before hangars can be used for non-aviation purposes.

In addition, the policy outlines the type of aircraft that can be built in a hangar, the equipment and items that can be stored in hangars, and the role of the airport sponsors to ensure tenants pay fair market value for hangar space.

A copy of the policy can be found at <https://www.federalregister.gov/articles/2016/06/15/2016-14133/policy-on-the-non-aeronautical-use-of-airport-hangars>
