Every 4th Saturday
10:30 AM
Grassy Area adjacent to Pilot's Lounge
- **Whiteman Display Day**
Every 2nd Sunday
10:00 AM – 2:00 PM

Fire Extinguisher Recertification. This year's fire extinguisher recertification will take place on Monday, November 14th. The program is intended to help tenants maintain current and fully-functional fire extinguishers in the hangars. Simply bring your fire extinguisher to the office (at the new building, second floor) during the collection period (all non-commercial tenants are welcome) and American Airports will have it inspected and recertified. We will be accepting fire extinguishers at the Administration Office November 7th through November 11th between 8AM and 5PM . If you cannot drop off the extinguisher during the above days/hours please contact the office at (818) 896-5271 and we can make arrangements to collect the extinguisher after hours or on a weekend day. The extinguishers will be ready for pickup on Tuesday, November 15th.

Storm Water Season. Our annual storm water monitoring season has started and requires that we inspect all ramps for possible pollutants. Please remember that painting, sanding or the use of any chemicals or solvents is not permitted in or around storage hangars or tie downs. If you see potential storm water issues around the airport please do not hesitate to contact my office at (818) 896-5271 or Airport Operations at (818) 312-2911 so that we may clean up any potential problems before they become one. Thanks in advance for your help!

Gas Theft – There have been reports of gas being stolen from aircraft at the airport. We are asking pilots to please monitor their fuel levels and report any and all discrepancies, as well as be on the lookout for anyone fiddling around with fuel caps at night.

Support your Airport Association. Please come out on the 3rd Thursday of each month to the Old Airport Administration Building and join the Airport Association for \$10 a year in dues. The next Airport Association meeting will be held on October 20th.

Vehicle Access Gate Cards. As a reminder; the new vehicle access gate cards that were issued in 2014 when our new gates were installed require annual renewal, which is scheduled to coincide with the holder's birthday. Please stop by the office before your birthday or call us during office hours (Monday through Friday, 8am-5pm) at (818) 896-5271 to have your card renewed

2016 Airport Commission Meetings

October 26, 2016 10:00 AM	KWHP
Nov 30, 2016 10:00 AM	KEMT
December 2016 No Meeting	

Aviation Quote of the Month

Whether outwardly or inwardly, whether in space or time, the farther we penetrate the unknown, the vaster and more marvelous it becomes.

– Charles A. Lindbergh

Young Eagles kicks off 25th anniversary year

Posted September 13, 2016 by General Aviation News Staff

EAA AVIATION CENTER, OSHKOSH, Wisconsin – What started in 1992 as a program to introduce kids to flight has evolved 25 years later into an movement powered by the world’s largest volunteer air force.

The Experimental Aircraft Association (EAA) Young Eagles program is celebrating its 25th anniversary in 2017, a milestone year that began with the flight of the 2 millionth Young Eagle by former Young Eagles Chairman and actor Harrison Ford at EAA AirVenture Oshkosh in July.

Ford, who served as volunteer chairman from 2004-2009 and has flown more than 300 young people himself, returned to Oshkosh to fly 16-year-old Jodie Gawthrop as Young Eagle No. 2,000,000. That flight came 13 years after the program reached its initial goal of flying 1 million young people by the 100th anniversary of powered flight in December 2003.

“The success of Young Eagles is based on its simplicity – one pilot flying one young person, free of charge, to introduce them to flight,” said Jack J. Pelton, EAA CEO and Chairman. “The program has been built on the dedication of more than 50,000 pilots who have flown at least one Young Eagle over the past quarter-century – some flying more than 5,000 kids – with the help of another 50,000 ground volunteers who have dedicated their time and talents.”

With a growing need for pilots, EAA Young Eagles is more important than ever before, according to EAA officials.

“While we just flew our 2 millionth Young Eagle in July, we really mark the beginning of the next million Young Eagle flights,” said Sean D. Tucker, Young Eagles Chairman and aerobatic pilot. “Aviation has brought so much to so many and touched so many lives. Our incredible EAA pilots and volunteers who fly these kids are passionate about providing the same opportunities they had in aviation to the next generation. Reaching 2 million kids flown in 25 years is a remarkable achievement, and we’re going to celebrate that in 2017!”

Specific activities celebrating Young Eagles’ 25th anniversary in 2017 will be announced as they are finalized. They will involve EAA members and chapters throughout the country, as well as ways for pilots and other volunteers to get involved. The 25th anniversary will reach its peak during EAA AirVenture Oshkosh 2017, July 24-30 in Oshkosh, Wisconsin.

Heading into the program’s 25th anniversary year, Young Eagles flights have been flown by EAA-member pilots in aircraft ranging from hot air balloons to corporate jets, and on every continent except Antarctica. The program has also brought aviation to youth in all socio-economic groups, including Native American tribes in the southwestern U.S. and inner city youth through an association with the famed Tuskegee Airmen of World War II.

Over its history, the Young Eagles program has drawn high-visibility personalities as chairmen. Along with Ford, EAA Young Eagles has been chaired by the late Academy Award-winning actor Cliff Robertson (1992-1994); Gen Chuck Yeager (1994-2003), the first man to fly faster than the speed of sound; Chesley “Sully” Sullenberger and Jeff Skiles (2009-2013), the cockpit crew of the “Miracle on the Hudson” USAir Flight 1549; and current chairman, aviator and air show performer Sean D. Tucker, who flies a Young Eagle at each air show tour stop.

Young Eagles also receives aviation industry-wide support, including from its presenting sponsor, Phillips 66, as well as additional support from Sporty’s Pilot Shop, Embry-Riddle Aeronautical University, Lightspeed, Garmin, the Academy of Model Aeronautics, and Global Aerospace.
